

PREPARE FOR

THE FUTURE OF CRUISE OPERATIONS

WITH GLOBAL RESCUE

In a world impacted by COVID-19, cruise operators will need to plan like never before to evolve health protocols to meet traveler expectations and government requirements.

We work closely with our clients, governments and health care providers to deploy integrated travel risk and crisis management solutions, supported by our GRIDSM proprietary journey management platform and our exclusive relationship with the Johns Hopkins Medicine Dept. of Emergency Medicine Division of Special Operations.

EXPERT ADVISORS TO HELP YOU PLAN & IMPLEMENT

Our in-house medical, security and intelligence experts have decades of experience in travel risk mitigation and crisis management planning. Our teams of doctors, nurses, paramedics, senior military intelligence and special forces veterans can help you implement new procedures to maintain the highest level of traveler health, safety and peace of mind.
