GET BACK TO BUSINESS

WITH TRAVEL RISK
MANAGEMENT SOLUTIONS

Global Rescue can help you meet the challenges of a COVID-19 impacted world. Our proprietary technology platform and in-house medical, security and intelligence experts work closely with each client to implement integrated travel risk and crisis management solutions for agencies, destinations and tour operators.

GLOBAL RESCUE CORE SERVICES

FIELD RESCUE

Our deployable teams are standing by to rescue our members from the point of illness or injury.

MEDICAL EVACUATION

We have unparalleled capability to transport our members back to their home hospital of choice.

ADVISORY SERVICES

Our operations centers are staffed by experienced nurses, paramedics and military special operations veterans and we have a partnership with the Johns Hopkins Emergency Medicine Division of Special Operations for advisory support.

SECURITY SERVICES

Advisory and evacuation services for events like natural disasters, terror attacks and civil unrest.

TRAVEL ASSISTANCE

Whether it's a lost passport or a language barrier, Global Rescue travel assistance can help with expected issues.

GLOBAL TELEHEALTH ACCESS

Access medical experts for real-time video consultations and treatment.

PLANNING

Our teams of doctors, nurses, paramedics, senior military intelligence and special forces veterans can help you update existing protocols and implement new procedures to address COVID-19 risks.

- + Full audit of existing company plans, standard operating procedures, contingencies and emergency action plans
- + Assessment of needs, threats, risk level and vulnerabilities with key personnel
- + Expert support in drafting and operationalizing plans
- + Organization and scripting of tabletop exercises and creation of online training modules

PRE-TRIP

Automate the creation and retention of pre-trip client profiles using the Global Rescue Intelligence Delivery System (GRID), a proprietary journey management platform designed to store critical traveler information and provide real-time situational awareness to all stakeholders.

- + Securely collect and store traveler history and health information. Track travel history, medical conditions and test results in one secure location
- + Obtain unlimited access to travel advisories and destination reports for 215 countries and principalities, including daily COVID-19-related information as well as destination-specific risk assessments and restrictions

ON-TRIP

Track clients in real time and match their profiles to potential threats. Their information is securely stored from the moment of booking until the traveler returns home. GRID data can be shared with industry stakeholders, relevant levels of local, state or federal governments and other required organizations.

- + With user opt-in, the GRID platform can monitor traveler location in real time through GPS tracking

COVID-19 SCREENING, TESTING AND TREATMENT

- + Screening, testing and triage for all travelers before, during and after their journey
- + Monitoring and management of all clients and logistics until travelers are home
- + TotalCareSM virtual health consults for all who need them

RESPONSE

Should a COVID-19 or other medical or security situation arise, our world-class deployment capabilities can support you in executing established emergency action plans that include:

- + Medical assessment, triage and testing for symptomatic travelers
- + Staffing for triage and disposition facilities with medical and security personnel and equipment
- + Coordination and management of all ground and air medical evacuations for COVID-19 positive travelers
- + Collection and tracking of data for all COVID-19 positive travelers from diagnosis through repatriation
- + Management of ground and aviation transportation to quarantine locations, hospital/isolation facilities or travel home
- + Coordination of hospital admission
- + Provision of hotel or other housing resources to accommodate quarantine for travelers who:
 - Are suffering minor COVID-19 symptoms (but not requiring hospitalization)
 - Are not infected but subject to quarantine
